Date of Pre-final Exam Meeting _____

THESIS TOPIC _____

PROGRESS:

ADEQUATE

INADEQUATE

A written memo outlining the outcome of the Supervisory Committee meeting and specific recommendations must be provided to the student and a copy included with this form. If inadequate progress is indicated, specific details must be provided.

In the memo, highlight accomplishments/milestones and future goals and expectations. In addition to providing these comments on the student's research progress/bench work, provide comments on the student's overall academic progress including presentation skills (written and oral), critical thinking, command of the scientific literature, and professionalism where appropriate.
